Restaurant Theme

Original template ported to xoops
https://bootstrapthemes.co/item/spicy-free-bootstrap-html5-template/

Modules used on the demo website http://restaurant.bleekk.com

- Publisher: https://github.com/XoopsModules25x/publisher/releases   (1.0.5 Final)
- Lexikon: https://github.com/XoopsModules25x/lexikon/releases   (1.52 Beta2)
- Contact: https://github.com/XoopsModules25x/contact/releases   (2.26 RC-1B)

If you want your website to look like the demo please follow the instructions:

1. in the image manager create a category (you need it to upload publisher article images)
2. install the modules
3. Publisher blocks used: „Latest news" and a clone of „Latest news
Preferences of these 2 blocks:
